

They should not be able to fight the do not call. these people are very annoying and rude and would call my house up until 10 pm which was not nice. they would call on weekends every hour on the hour and they should not be allowed to contact people at all. they should keep the do not call list in effect. people should not be disturbed at all. i would like to get their home number and call them at all hours and see how they like it. stupid assholes.
